SUMMARY

Security Analyst with a strong background in IT, system engineering, and cybersecurity operations. Experienced in monitoring, investigating, and responding to threats across SIEM platforms like CrowdStrike, Microsoft Sentinel, Cisco XDR, and ELK. Previously worked at Teva, Xioma, and Bezeq, where I built a solid foundation in system administration, troubleshooting, and networking. Passionate about continuous learning, I'm advancing my skills in cyber forensics and counterterrorism, with certifications in Information Security and System Engineering. Focused, adaptable, and driven to stay ahead of evolving threats while strengthening organizational security.
